

REMARKS/ARGUMENTS

35 USC § 102(b)

Claims 17-20 remained rejected under 35 USC § 102(b) as being anticipated by Antalffy et al. (U.S. Pat. No. 5,098,524). The applicant disagrees, especially in view of the amendments made herein.

The Examiner appeared to argue that pivot 30 would allow a sideways movement of the head. Such argument is flawed as the term "moving sideways" is inconsistent with rotating movement as described in the cited reference. *A rotating movement is simply not a sideways movement.* Nevertheless, to even more clearly point out the specific sideways motion, the applicant amended claim 17 to expressly require that "...the head moves laterally relative to the outlet in a movement in which simultaneously a first section of the head is lowered and an opposite section of the head is raised while the head pivots about the first pivot..." Clearly, this is neither taught nor suggested by the cited reference. Consequently, claims 17 and 18-20 by virtue of their dependence are not anticipated by Antalffy et al.

In view of the present amendments and arguments, the applicant believes that all claims are now in condition for allowance. Therefore, the applicant respectfully requests that a timely Notice of Allowance be issued in this case.

Respectfully submitted,

~~RUTAN & TUCKER~~
